

STUDY OF COORDINATED MULTIMODAL
URBAN MASS TRANSPORTATION SYSTEM

By

SWAPAN KUMAR DEB
CIVIL ENGINEERING DEPARTMENT

Thesis submitted

in fulfilment of the requirements of the degree

OF

Doctor of Philosophy

TO THE

Indian Institute of Technology, Delhi

November 1985

Dedicated to those
who sacrificed for others

A C K N O W L E D G E M E N T

Author wishes to express his deep gratitude to Dr. S.L. Dhingra. Author is grateful to Prof. S.C. Dasgupta (D.P.I. Government of West Bengal), Prof. M. Beha-kiva (M.I.T., U.S.A.), for their scientific discussions. Author is also thankful to Prof. C.S. Surana (I.I.T. Delhi), for his various helps.

Author owes a debt of gratitude to Prof. P.S. Satsangi and Dr. M.C. Mathur of Electrical Engineering Department for their critical comments and useful suggestions in improving the work.

Author is thankful to Prof. Subhash Chander, Prof. S.K. Gulhati, Prof. T.Ramamurthy, Prof. S. Krishnamoorthy and others who extended all possible help during the programme.

Author is also thankful to the Office Staff and Draughts men of Civil Engineering Department, all of his friends who helped in various occasions.

Finally the greatest contribution have been the author's father and mother due to whose sacrifices only he could go in for higher education.

Above all the cooperation extended by the author's sister Miss. Sukti R. Deb who faced all the nefarious and illegal activities, deliberately designed by Nankanis, and others during author's absence at Calcutta, is worthy of special mention. Even after the death, of author's parents from cerebral thrombosis due to anxiety and fear created from those disturbances, his sister, provided constant encouragement to finish the programme staying alone at Calcutta.

November , 1985

SWAPAN KUMAR DEB

CERTIFICATE

- i) I am satisfied that the thesis presented by Mr. SWAPAN KUMAR DEB is worthy of consideration for the award of the degree of Doctor of Philosophy and is a record of the original bonafide research work carried out by him under my guidance and supervision and that the results contained in have not been submitted in part or full to any other university or Institute for award of any degree/diploma.
- ii) I certify :
That he/~~she~~ has pursued the prescribed course of research.

(Signature)
Supervisor of the candida

LIST OF TABLES	vii
LIST OF FIGURES	ix
LIST OF SYMBOLS AND ABBREVIATIONS	xi
LIST OF APPENDICES	127
ABSTRACT	xiii
1. INTRODUCTION	1
1.1 Transportation System - General Description	1
1.2 Review of Literature	3
1.3 Objective of the Study	17
1.4 The Extent and the Scope of the Study	17
1.5 Organisation of the Study Report	18
2. FUZZY SET THEORY AND ITS APPLICATION TO TRANSPORTATION SYSTEM	20
2.1 Introduction	20
2.2 Application of Fuzzy Set Theory to Urban Multimodal Mass Transportation System	23
2.3 Procedure for Conducting Study	23
2.4 The Methodology	24
2.5 Attribute-wise Comparison of Alternatives	37

3.	CASE STUDY - 1, URBAN MASS TRANSIT CHOICES	46
3.1	Description of Study Area	46
3.2	Fuzzy Set Methodology demonstration for Study	48
3.3	Discussion of Results and Conclusions	58
4.	CASE STUDY - 2, SAMPLING PLAN AND MODAL CHOICE FOR URBAN MASS TRANSIT CORRIDORS	61
4.1	Selection of Corridors, Mass Transit Modes and Their Attributes	61
4.2	Sampling Plan	64
4.3	Procedural Steps for the Case Study	65
4.4	Steps for Case Study Demonstration	72
4.5	Detailed Attribute-wise Analysis	81
4.6	Conclusions	91
5.	SENSITIVITY ANALYSIS	93
5.1	Introduction	93
5.2	Analysis Procedure	93
5.3	Discussions of Results	97

6.	METAGAME ANALYSIS FOR PLANNING A TRANSIT SYSTEM	106
6.1	Introduction	106
6.2	An Example	109
6.3	Procedure for Metagame Analysis	111
6.4	Case Study	113
6.5	Conclusions	117
7.	CONCLUSIONS	118
7.1	Limitations of present study and scope for further study	120
