

C E R T I F I C A T E

This is to certify that the thesis entitled "Goat Carboxypeptidase A (Purification and Characterisation of Various Forms of Carboxypeptidase A)" being submitted by S.M. Ralhan to the Indian Institute of Technology, Delhi for the award of the degree of Doctor of Philosophy, is a record of bonafide research work carried out by him.

S.M. Ralhan has worked under my guidance and supervision and has fulfilled the requirements for the submission of this thesis, which to my knowledge, has reached the requisite standard.

The results contained in this thesis have not been submitted in part or full to any other university or institute for the award of any degree or diploma

(R.D. Dua)

ACKNOWLEDGEMENTS

I am highly indebted to Professor R.D. Dua for suggesting the problem, valuable guidance and constant encouragement during the course of these investigations.

A word of appreciation is due to my colleagues in the Biochemistry laboratory for their help and cooperation during the period of my stay here.

Mr. N.K. Nautiyal, Junior Technical Assistant needs a special mention here. In spite of numerous difficulties, he maintained the instruments in Biochemistry laboratory in good shape which permitted me to finish the project satisfactorily.

I also wish to thank the authorities of the Indian Institute of Technology, Delhi and the Council of Scientific and Industrial Research for the facilities and the financial assistance respectively.

A word of appreciation is also due to Mr. S.L. Aneja for his neat typing of the manuscript and to Mr. N.L. Arora for fine execution of diagram tracings.

(S.M. Ralhan)
