

SOME INVESTIGATIONS INTO THE PROPERTIES
OF ELECTRONS IN DISORDERED LINEAR ARRAYS

By

Philip D'Souza

Electrical Engineering Department

Submitted

in partial fulfilment of the
requirements of the Degree of
Doctor of Philosophy
to the

Indian Institute of Technology

Delhi

September
March 1979

ACKNOWLEDGEMENTS

It is with great pleasure that I acknowledge the help, encouragement and guidance of Dr. B.P. Mathur and Dr. K.P. Jain throughout the course of this research.

I would also like to extend my thanks to Mr. V.N. Sharma for his patient and meticulous typing of this manuscript.

The financial support of the Indian Institute of Technology, New Delhi, during the course of this work is gratefully acknowledged.

PHILIP D'SOUZA

CONTENTS

	Page
List of Symbols	(i)
List of Figure Captions	(ii)
Ch. 1 Introduction	1
Ch. 2 The Symmetric Scatterer	9
Ch. 3 Arrays of Scatterers	16
Ch. 4 Periodic Arrays of Scatterers	30
Ch. 5 Aperiodic Arrays and Localised States	47
Ch. 6 The Probability Density Distribution of Reflectances	56
Ch. 7 State Free Gaps in Disordered Structures	80
Ch. 8 Asymmetric Scatterers and Oriental Disorder.. ..	102
Ch. 9 Conclusions	122
References	126

Appendices

A1 The Impulse Scatterer	128
A2 Proof that $Q_{L-} - Q_{L+} = 1$	132
A3 Evaluation of the Jacobian $J \begin{bmatrix} R, \varphi \\ \gamma, \theta \end{bmatrix}$	133
A4 Computer Generation of the Probability Distribution of Lengths	136
A5 Proof that O_+ is a Stable Point	146
A6 Note on the Choice of θ_+ as a Stable Point.. ..	149
