

CHARACTERIZATION AND APPLICATIONS OF
MONOLITHIC INTEGRATED CIRCUIT RESISTORS AND CAPACITORS

MOHAN LAL GUPTA

Thesis submitted to Indian Institute of Technology, Delhi in partial fulfilment of the requirements for the degree of Doctor of Philosophy in Physics.

INDIAN INSTITUTE OF TECHNOLOGY, DELHI

JANUARY 1974

ACKNOWLEDGEMENTS

It is with sincere gratitude and appreciation that I wish to thank Dr. A.B. Bhattacharyya who initiated and supervised the programme of the present thesis. I owe so much to him for his valuable guidance, kind encouragement and constant inspiration.

In addition, I wish to express my gratitude to Prof. S.C. Dutta Roy for many helpful suggestions given during the course of the investigation. My sincere thanks are due to Dr. B.R. Marathe and his group at Central Electronic Engineering Research Institute, Pilani, for providing me with encapsulated diffused resistors.

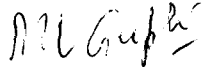

The author also wishes to express his appreciation for the valuable assistance of I.I.T. Delhi Computer Centre.

My sincere thanks are due to Dr. S.L. Sarnot, Mr. T.N. Basavaraj, Mr. A. Shrivastva, Mr. R.K. Nahar, Mr. S. Saxena, Mr. P. Sudhakar and other friends for their sustained interest in the project.

Finally, I would like to express my appreciation to the Council of Scientific and Industrial Research, India and to the Ministry of Defence, India for the financial assistance which made this work possible.

New Delhi

CONTENTS

Acknowledgements	i
Glossary of Important Symbols and Physical Constants..	iii
Introduction and Scope of Thesis.....	x

Part 1: RESISTORS

1. Physical Characterization of Diffused Resistors ..	2
2. Single-Section Lumped Models for Diffused Resistors	50
3. Single-Section Lumped Approximation to Distributed RC Notch Filters	107
4. Fabrication and Characterization of Diffused Resistors	142

Part 2: CAPACITORS

5. Fabrication and Physical Characterization of p-n Junction Capacitors	158
6. Bias-Dependent Transient Response of p-n Junction Capacitors	196

Conclusions	238
-------------------	-----

Appendix A Approximation for the Complementary Error Function	245
---	-----

Appendix B A RC Notch Filter with Distributed Shunt Resistance	248
--	-----

Appendix C The Values of the Parameters of an Exponentially Tapered RC Null Network	254
---	-----

Appendix D Measurement of p-n Junction Capacitances	256
