CERTIFICATE

I am satisfied that the Thesis entitled "Investigations of the Optoelectronic Properties of Some Organic and Inorganic Photoreceptors with Special Reference to PVP-I₂ Charge Transfer Complex and CdSSe(Cu)" by B. Vasanta is worthy of consideration for the award of the Degree of Doctor of Philosophy and is a record of the original bonafide research work carried out by her under my guidance and supervision. The results contained in it have not been submitted in part or full to any other University or Institute for award of any Degree/Diploma.

ACKNOWLEDGEMENTS

Words are inadequate to express my deep sense of gratitude to my research supervisor Professor P.K.C. Pillai. But for his valuable guidance, helpful criticism and constant encouragement this work would not have achieved completion.

Discussions with Dr. D.K. Roy at various stages of this work have been fruitful. I gratefully acknowledge his assistance.

I wish to thank Professor M.S. Sodha, Professor R.G. Mendiratta, Dr. A. Chandra and Dr. R.P. Dahiya for their encouragement throughout the course of the work.

I acknowledge the help and cooperation rendered to me by my colleagues in the 'Electrets' group.

It gives me pleasure in thanking Mr. V.N. Sharma for the elegant typing, Mr. R.P. Kapoor for his efforts in preparing neat drawings and Mr. Mast Ram for efficient cyclo-styling of the manuscript.

I am indebted to my parents and in-laws for their encouragement and help during the course of the work. I would like to place on record my sincere appreciation for the kind of inspiration and support I received from my husband throughout the course of this work.
