

**IMPACT OF TELECAST MESSAGES
ON RURAL WOMEN
AN EMPIRICAL STUDY**

A THESIS

*PRESENTED TO THE DEPARTMENT OF HUMANITIES AND
SOCIAL SCIENCES, INDIAN INSTITUTE OF TECHNOLOGY,
NEW DELHI, FOR THE AWARD OF THE DEGREE OF*

DOCTOR OF PHILOSOPHY

**INDERJIT SOHI (nee' Sekhon), M.Sc. Home Science
(RURAL COMMUNITY EXTENSION)**

1973

INDIAN INSTITUTE OF TECHNOLOGY, NEW DELHI

Department of Humanities and Social Sciences

April 13, 1973

K. L. Nadir, Ph.D.
Assistant Professor of Political Science, and
Head of the Department.

I forward this thesis entitled IMPACT OF TELECAST
MESSAGES ON RURAL WOMEN - AN EMPIRICAL STUDY by
Mrs. Inderjit Sohi (nee' Sekhon), M. Sc. Home Science (Rural
Community Extension), Research Scholar in the Department of
Humanities and Social Sciences, Indian Institute of Technology, New
Delhi, for examination for the award of the degree of Doctor of
Philosophy in Social Sciences (Home Science: Extension, Mass
Communication).

The study is an original piece of research and was
carried out under my supervision and guidance.

The thesis, or any part thereof, has not been submitted
to any other University or Institute for the award of any degree.

K. L. Nadir

Research Guide

ACKNOWLEDGEMENTS

This thesis has been prepared under the able and kind guidance of Dr. K. L. Nadir, Ph.D., Assistant Professor of Political Science, and Head, Department of Humanities and Social Sciences. To him, I owe a profound debt of gratitude for his valuable guidance, keen interest, pains taking efforts and constructive criticism through out the period of my study.

I am equally indebted to Professor A.N. Pandeya, Professor of Human Relations in Management, who very kindly helped me at every stage of my work and gave me generous and learned counsel.

My sincere gratitude is due to Dr. J.N. Joshi, Associate Professor in the Department of Education, Himachal Pradesh University, Simla, for critically going through the manuscript, and Mr. B.S. Gill, Senior Statistician, Department of Agriculture, New Delhi, for suggesting the statistical techniques employed in this investigation. Dr. (Mrs.) S. Mulay, Professor of Social Research, Indian Institute of Mass Communication, New Delhi, and Dr. Raghubar Singh, Professor of Economics and Extension Research, J. V. College, Baraut, Uttar Pradesh, were kind enough to help me in the initial planning of the study. Dr. S.K. Sharma, Assistant Director General, Indian Council of Agricultural Research, New Delhi, was helpful in providing useful suggestions whenever approached.

Mention must also be made of the kind co-operation of the Director of TV Centre, New Delhi, and his staff for arranging and putting the required telecasts on the air. Staff of the Central Family Planning Institute, New Delhi, must be thanked for allowing me access to their film library. My thanks are also due to Mr. Shivtar Singh of Institute of Agricultural Research Statistics, New Delhi, for helping me in the analysis of the data on the computer.

Needless to say that this study could not have been possible without the helpful co-operation of the respondents which they rendered me in their own simple and friendly way. I would like to thank the Headmistress of Government Girls High School, Kirholi-Pahladpur and her staff who were very kind to help me with all the facilities available in the school.

The author acknowledges with thanks the Indian Council of Agricultural Research, New Delhi, for the award of a senior fellowship for conducting this study.

It is usually thought out of place to acknowledge, in works like this, the help rendered by one's relatives. But, the help provided by my aunt Mrs. Harbans Sidhu, M.A., M. Ed., and by my uncle Mr. G.S. Sidhu, Scientist, Indian Council of Agricultural Research, New Delhi, has been exceptionally valuable,

and it has been more than one way. Besides it being academic and scientific it has been inspirational. The strength provided by them throughout my student career, on which I have heavily depended during many difficult moments, has carried me through and has led me to the culmination of this study.

Finally, my sincere gratitude to my wonderful husband for his patience, co-operation and inspiration is beyond measure.

April 13, 1973.
