DEDICATED

TO

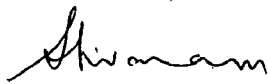

MY FATHER

C E R T I F I C A T E

This is to certify that the thesis entitled "Studies on Polymorphic Enzymes and other Proteins in Human Blood and Bloodstains" being submitted by Hema Joshi to the Indian Institute of Technology, Delhi for the award of the degree of Doctor of Philosophy, is a record of bonafide research work carried out by her. Hema Joshi has worked under my guidance and supervision and has fulfilled the requirements for the submission of this thesis, which to my knowledge, has reached the requisite standard.

The results contained in this thesis have not been submitted in part or in full, to any other university or institute for the award of any degree or diploma.

A C K N O W L E D G E M E N T S

I wish to express my profound gratitude to Dr. S.Sivaram and Professor R.D.Dua for their constant advice, kind encouragements and helpful criticisms.

I shall also like to express my sincere thanks to Dr. P.C.Maiti, Deputy Director, Mr. B.K.Roy and Mr. Bhawani Mal, past and present Directors of the Institute of Criminology and Forensic Science, New Delhi, to Dr. H.L.Bami, Director, Central Forensic Science Laboratory, New Delhi and to the authorities of Indian Institute of Technology, Delhi, for providing the necessary facilities.

My sincere thanks are due to Dr. R.Narayanan, Officer-in-Charge, Blood Bank, Safdarjung Hospital, New Delhi for arranging the fresh blood samples, to Professor Jagdish Chandra, Head, Department of Forensic Medicine, All India Institute of Medical Sciences, New Delhi, for post-mortem blood samples and to the Directors of the various Forensic Science Laboratories in India for case exhibit cuttings.

I wish further to express my sincere gratitude to all my colleagues, innumerable friends and to all the members of both the departments who extended their friendly cooperation whenever sought for.

My special thanks are due to Mr. R.N.Shukla for typing of this manuscript.

I gratefully acknowledge the financial assistance provided by the Bureau of Police Research and Development, Ministry of Home Affairs, Government of India and the Council of Scientific and Industrial Research, New Delhi, towards completion of this study.

GENERAL INTRODUCTION	1
STUDIES ON PHOSPHOGLUCOMUTASE (LOCUS ONE)	
Introduction	8
Materials and Methods	12
Reagents	12
Fresh blood samples	14
Preparation of fresh bloodstains	15
Storage conditions	15
Temperature	15
Humidity	16
Solar radiation	17
Body perspiration	18
Post-mortem blood samples	18
Stains of post-mortem blood	18
Exhibits of criminal cases	19
Typing of PGM ₁ variants	19
Temperature and humidity control	24
Observations and Results	26
Fresh blood samples	26
Fresh bloodstains	26
Post-mortem blood sample	38
Stains of post-mortem blood	41
Exhibit bloodstains of criminal cases	43
Discussion	47
STUDIES ON ADENYLATE KINASE	
Introduction	61
Materials and Methods	64
Blood samples and stains	64
Storage conditions	64
Exhibits of criminal cases	64
Typing of AK variants	66
Observations and Results	69
Fresh blood samples	69
Fresh bloodstains	69
Post-mortem blood samples	81
Stains of post-mortem blood	81
Exhibit bloodstains of criminal cases	81
Discussion	88
