C E R T I F I C A T E

This is to certify that the thesis titled 'Microbial Oxidation of Methane to Methanol' submitted by Perdeep K. Mehta has been prepared under our supervision in conformity with rules and regulations of the Indian Institute of Technology, Delhi. The research report and results presented in the thesis have not been submitted for any degree in any other University.

  
(Saroj Mishra)

  
(Tarun K. Ghose)

## ACKNOWLEDGEMENT

I express my sincere gratitude to my research supervisors Professor Tarun K. Ghose and Dr.(Mrs.) Saroj Mishra for their inspiring, dynamic and meaningful guidance, stimulating discussions and keen interest shown throughout the period of this investigation.

I am also indebted to the head of the BERC, and faculty members including Dr. Subhash Chand for his valuable suggestions during research work, Dr. Vikram Sahai for the help in the simulation of data analysis and Dr. K.B. Ramachandran and Dr. P. Ghosh for their help and fruitful discussions and suggestions made during the course of the work.

My thanks are also due to Mr. V.K. Ghosh, Mrs. S. Mathai, Mrs. Renu Seth, Mr. Shiv Singh, Mr. J.A. Khan, and Mr. Keshav Prasad for their technical help.

I wish to thank my colleagues Mr. S.K. Gupta, Mr. Gyan Prakash, Dr. S.K. Srivastava, Dr. K.K. Raina, Dr. Jyoti P. Choudhury, Dr. Sunil Kochhar, Mr. A.K. Dubey and Mr. A.K. Srivastava and others for their sincere help, support and active co-operation throughout the period of this work.

I am grateful to my wife Vinita for bearing throughout with me untill completion of this work. Also I am sincerely thankful to my father-in-law Mr. B.D. Mehta for the encouragement and help whenever and wherever required.

Lastly I wish to thank Mr. A.K. Seth and M/s The Printways for the neat and perfect typing job.

Perdeep K. Mehta

# CONTENTS

## CHAPTER - I

### INTRODUCTION

Methanol Synthesis from Methane	1
Microbiology and Biochemistry of Methane Oxidizers	3
OBJECTIVE	9

## CHAPTER - II

### LITERATURE REVIEW

Methylotrophs	13
Enzymes of Methane Oxidation Pathway	25
- <i>Methane Monooxygenase</i>	
- <i>Methanol Dehydrogenase</i>	
- <i>Formaldehyde Dehydrogenase</i>	
- <i>Formate Dehydrogenase</i>	
Microbial Conversion of Methane to Methanol	42
Immobilized Cells as Bio-transformants	47

## CHAPTER - III

### MATERIALS AND METHODS

Organism and Culture Conditions	53
Analytical Procedures	57
Whole Cell Immobilization Method	63
EXPERIMENTS	
Growth Kinetics	66
Methanol Accumulation by Free Cells	68

Methanol Accumulation by Immobilized cells	72
CHAPTER - IV	
RESULTS	
Isolation and Screening of Methylo trophs	78
Growth Kinetics and Methanol Accumulation by <i>M. trichosporium</i>	84
Mode of Phosphate Inhibition of Methanol Oxidation - Biochemical Aspects	110
Methanol Synthesis by Immobilized Whole Cells in batch and continuous Reactors	116
CHAPTER - V	
DISCUSSION	
Screening of Novel Methylo trophs	139
Growth and MMO Activity in <i>M. trichosporium</i> Whole Cells	143
Role of Phosphate ions in Methanol Accumulation	145
Mode of Phosphate-dependent Inhibition of Methanol Oxidation	146
Methanol Biosynthesis by Immobilized Cells	154
Mechanistic Model of Methanol Biosynthesis and co-enzyme Regeneration	161
CHAPTER - VI	
SUMMARY AND CONCLUSIONS	166
NOMENCLATURE AND SYMBOLS	167
ANNEXURE	169
REFERENCES	170
