

CARBOXYPEPTIDASES FROM GOAT PANCREAS

(Purification and Characterisation of Carboxypeptidase A)
(EC. 3.4.12.2)

A THESIS SUBMITTED TO THE
INDIAN INSTITUTE OF TECHNOLOGY, NEW DELHI
FOR THE DEGREE OF
DOCTOR OF PHILOSOPHY
IN CHEMISTRY

ASHUTOSH DIXIT, M.Sc.
CHEMISTRY DEPARTMENT
SEPTEMBER, 1975.

C E R T I F I C A T E

This is to certify that the thesis entitled "Carboxypeptidases from Goat Pancreas(Purification and Characterisation of Carboxypeptidase A: EC.3.4.12.2)" being submitted by Mr. Ashutosh Dixit to the Indian Institute of Technology, Delhi for the award of the degree of Doctor of Philosophy in Chemistry, is a record of bonafide research work carried out by him. Mr. A. Dixit has worked under my guidance and supervision and has fulfilled the requirements for the submission of this thesis, which to my knowledge, has reached the requisite standard.

The results contained in this thesis have not been submitted in part or in full, to any other university or institute for the award of any degree or diploma.

(R.D. Dua)
Thesis Supervisor
Prof. of Chemistry

It is my pleasure to express a deep sense of gratitude to Prof. R.D. Dua, Prof. and Head of the Chemistry Department, I.I.T. Delhi, for his invaluable guidance during the course of this project.

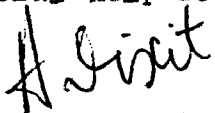

I shall like to thank Dr. R.C. Anand who took special pains to prepare some of the acyl substrates which were not available commercially.

Thanks are also due to my colleagues in the Biochemistry laboratory, especially Mr. M.P. Rao and Miss Rita Mitra, whose willing cooperation made my experimental work and stay very pleasant.

Mr. N.K. Nautiyal, senior laboratory assistant needs a special mention here. In spite of numerous difficulties, he maintained the instruments in Biochemistry laboratory in good shape which permitted me to finish the project satisfactorily.

Miss Sukhvarsha typed this manuscript and Mr. N.L. Arora helped me in tracing the figures.

The author is obliged to the Director, I.I.T. Delhi as well as C.S.I.R. for financial help for the project.

Ashutosh Dixit

INTRODUCTION	1
MATERIALS AND METHODS	
Collection of pancreas juice	24
Activation of pancreas juice	25
Reagents	25
NCbz-glycyl-L-glutamic acid	28
NCbz-glycyl-L-aspartic acid	30
Buffers	31
Assay of the carboxypeptidase activities	32
Ninhydrin reagent	33
Assay of the esterase activity	34
Protein determination	34
Detection of amino acids	36
Preparation of calcium phosphate gel	36
Identification of metals	37
Zinc determination	37
Gel electrophoresis	39
