

INFLUENCE OF ACCURACY OF ASSEMBLY SYSTEMS  
ON COMPONENT TOLERANCING

BY

NARENDRA KUMAR TEWARI

A THESIS SUBMITTED TO THE  
INDIAN INSTITUTE OF TECHNOLOGY, DELHI  
FOR THE DEGREE OF DOCTOR OF PHILOSOPHY  
IN THE FACULTY OF ENGINEERING

---

DEPARTMENT OF MECHANICAL ENGINEERING  
INDIAN INSTITUTE OF TECHNOLOGY, DELHI ( INDIA )  
DECEMBER 1971

---

CERTIFICATE

This is to certify that the thesis entitled " Influence of Accuracy of Assembly Systems on Component Tolerancing " being submitted by Mr. N.K. Tewari to the Indian Institute of Technology, Delhi, India, for the award of the degree of Doctor of Philosophy in Mechanical Engineering is a record of bona-fide research work carried out by him.

Mr. Tewari has worked under the joint supervision of Professor W.B. Heginbotham, Head of the Department of Production Engineering and Production Management, University of Nottingham and the undersigned and he has fulfilled the requirements for the submission of this thesis, which to our knowledge has reached the requisite standard.

No part of this thesis has been submitted anywhere-else for the award of any degree or diploma.

*BK Ahuja* 28.12.1971  
( Dr. B.K. Ahuja )  
Professor and Head of Mech. Engg.,  
Indian Institute of Technology,  
Hauz Khas, New Delhi-29.

THE UNIVERSITY OF NOTTINGHAM

DEPARTMENT OF PRODUCTION  
ENGINEERING AND PRODUCTION  
MANAGEMENT UNIVERSITY  
PARK NOTTINGHAM NG7 2RD

Head of Department: (Seal)  
Professor W.B. Heginbotham  
B.Sc. Tech., M.Sc. Tech., Ph.D.  
(Manchester)  
F.I.Prod E., M.I.Mech.E., F.R.S.A.

Dated 10 December, 1971

CERTIFICATE

This is to certify that the thesis entitled "Influence of Accuracy of Assembly Systems on Component Tolerances" being submitted by Mr. N.K. Tewari to the Indian Institute of Technology, Delhi, India, for the award of the degree of Doctor of Philosophy in Mechanical Engineering is a record of bona fide research work carried out by him.

Mr. Tewari has worked under my guidance and supervision and has fulfilled the requirements for the submission of this thesis which, to my knowledge, has reached the requisite standard.

The results contained in this thesis have not been submitted in part or in full to any other University or Institute for the award of any degree or diploma.

ACKNOWLEDGEMENTS

The author is indebted to Professor W.B. Heginbotham, Head of the Department of Production Engineering and Production Management, University of Nottingham, U.K., for his inspiring guidance and for providing facilities to carryout the theoretical and experimental analysis.

The author is grateful to Professor B.K. Ahuja, Head of the Department of Mechanical Engineering, I.I.T., Delhi for his guidance and for providing necessary facilities during the final stages of this work.

Thanks are due to Messrs R.P. Thomson and J.A. Eziashi of the Department of Production Engineering and Production Management, University of Nottingham, and their teams of technicians for their efforts in fabricating the experimental rig and to Mr. V.P. Gulati for typing this thesis.

The author would like to express his gratitude to I.I.T., Delhi and the British Council for their assistance to enable him to carryout research at the university of Nottingham, and to the Department of Trade and Industry, U.K., for supporting and financing this project.

  
( N.K. Tewari )

CONTENTS

	Page
Acknowledgements	iv
Nomenclature	viii
List of Illustrations	x
Summary	xiii
Chapter I	
Introduction	
1.1	1
Brief Introduction to Mechanised Assembly Systems	
1.2	9
General Discussion on accuracy Requirements for Mechanically Determined Automatic Assembly Systems	
Chapter II	
Analysis of Errors in Assembly Operations	
2.1	15
Concept of a Typical Mechanised Assembly System	
2.2	15
Classification of Errors	
2.3	29
Summation of Errors, excluding Location and Orientation Errors	
2.4	37
Further Consideration of Errors due to Orientation of Components of Assembly	
2.5	43
Summation of Errors, excluding Location Errors	

## CONTENTS (contd.)

		Page
Chapter III	Experimental Analysis	
3.1	The Assembly System and Outline of Experimental Programme	46
3.2	Tests for Determining Errors of the System	49
3.3	Verification of Theoretical Analysis derived in Section 2.3	67
3.4	Verification of Theoretical Analysis derived in Section 2.5	74
Chapter IV	Discussion of Results and Conclusions	
4.1	General Comments	78
4.2	Performance of System when Table is Stationary	79
4.3	Performance of System when Travelling Placement Device is Stationary	80
4.4	Performance of the System when both Mechanisms are moving	81
4.5	Performance of the System when the orientation Error is also considered	82
4.6	Limitation of the Present Analysis	84
4.7	Conclusions	85

## CONTENTS (contd.)

		Page
Appendix I	Summation of Chains of Dimensions	86
II	Determination of Confidence Limits	92
III	Calculation of Values of Clearances for Assembly	93
IV	Verification of Analysis, derived in Sections 2.3 and 2.5, with lead-in on Components	103
V	Computer Programmes	106
