

**ON ECONOMIC LOAD DISPATCH OF  
INTEGRATED POWER SYSTEM**

**CHUNI LAL WADHWA**

**THESIS SUBMITTED IN PARTIAL FULFILMENT OF  
THE DEGREE OF DOCTOR OF PHILOSOPHY, IN  
ELECTRICAL ENGINEERING**

**DEPARTMENT OF ELECTRICAL ENGINEERING  
INDIAN INSTITUTE OF TECHNOLOGY, DELHI  
NEW DELHI-110029**

**1975**

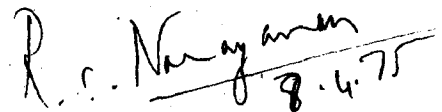

C E R T I F I C A T E

Certified that the dissertation entitled, " On Economic load dispatch of integrated power system", which is being submitted by Shri CHUNI LAL WADHWA for the award of Doctor of Philosophy in Electrical Engineering of the Indian Institute of Technology Delhi, is a record of the students' own work carried out by him during 1971-75 under our joint supervision and guidance. The matter embodied in this dissertation has not been submitted for the award of any other degree or diploma.

Delhi  
April 1975.

( Dr. J. NANDA )  
PROFESSOR, DEPTT. OF ELECTRICAL  
ENGINEERING IIT DELHI.

Professor R.C. Narayanan  
PRINCIPAL  
DELHI COLLEGE OF ENGINEERING  
DELHI.

## ACKNOWLEDGEMENTS

The author is deeply indebted to Prof. J. Nanda for his guidance and valuable suggestions at every stage of this work. Professor R.C. Narayanan has been a constant source of inspiration and the encouragement. The guidance, the author received from him, is gratefully acknowledged.

Thanks are due to the Delhi University Computer Centre for providing excellent facilities on IBM 360/44 System.

The author wishes to thank Mr. Dilbagh Lal for the tracings.

( C. L. Wadhwa )

CHAPTER 1		
	INTRODUCTION	1
1.1	Introduction	1
1.2	State of the art of the problem	2
1.3	Outline of the thesis	9
CHAPTER 2	Economic load dispatch by classical techniques.	14
2.1	Introduction	14
2.2	Exact Coordination Equations	15
2.3	Loss formulation by New loss coefficients( $A_{ij}$ )	17
2.3.1	Computation of $A_{ij}$ Coefficients	18
2.3.2	Problem formulation	20
2.3.3	Computational procedure for Optimal load flow(economic load dispatch)	21
2.3.4	Sample examples and results	23
2.4	Discussion	27
2.5	Modified Coordination equations	27
2.5.1	Problem formulation	30
2.5.2	Computational procedure	31
2.5.3	Analysis	32
2.5.4	Discussion	34
2.6.	Improved solution method.	35
2.6.1	Computational procedure(New)	36

	2.6.2	Sample example	40
	2.6.3	Discussion	42
	2.7	Conclusion	45
CHAPTER	3	Economic load dispatch by Fletcher Powell	47
	3.1	Introduction	47
	3.2	Sequential unconstrained minimisation technique(SUMT)	50
	3.2.1	Zangwill formulation(SUMT)	55
	3.3	Fletcher-Powell Method	57
	3.3.1	Construction of H	59
	3.3.2	Fletcher-Powell Algorithm	62
	3.4	Optimal load flow problem for economic load dispatch	64
	3.5	Sample examples	67
	3.5.1	Selection of parameter 'r' for Zangwill	68
	3.5.2	Selection of Step length for F P	69
	3.5.3	Results and Analysis	71
	3.6	Conclusion	77
CHAPTER	4	Economic load dispatch using Fletcher's technique	79
	4.1	Introduction	79
	4.2	Fletcher technique	82
	4.3	Algorithm description for Fletcher Method	86
	4.4	Problem formulation	88

	4.5	Analysis	89
	4.6	Conclusion	89
CHAPTER	5	Economic load dispatch by self scaling variable metric Algorithm	96
	5.1	Introduction	96
	5.2	SSVM technique	97
	5.3	SSVM algorithm	104
	5.4	Analysis	105
	5.5	Conclusion	110
CHAPTER	6	Economic load dispatch by direct search technique	111
	6.1	Introduction	111
	6.2	Nelder and Mead	113
	6.2.1	Introduction	113
	6.2.2	Mathematical formulation	115
	6.3	Algorithm	120
	6.4	Analysis	123
	6.4.1	Effect of $t$	125
	6.4.2	Effect of $\alpha$	127
	6.4.3	Effect of Centroid	128
	6.4.4	Effect of Convergence criterion	128
	6.5	Conclusion	129
CHAPTER	7	Economic load dispatch by Flexible tolerance technique	131
	7.1	Introduction	131
	7.2	Flexible tolerance technique	133

	7.3	Flexible tolerance Algorithm	137
	7.4	Analysis	140
	7.5	Conclusion	142
CHAPTER	8	CONCLUSION	143
	8.1	Introduction	143
	8.2	Suggestions for further studies	147
