

STUDIES ON GRAFT COPOLYMERISATION OF
WOOL USING SOME ACRYLATE MONOMERS

A thesis submitted to the
INDIAN INSTITUTE OF TECHNOLOGY, DELHI
for the degree of
DOCTOR OF PHILOSOPHY

RANJIT KUMAR SARKAR, M.Tech.
TEXTILE TECHNOLOGY DEPARTMENT

July, 1974

CERTIFICATE

This is to certify that the thesis entitled "Studies on Graft Copolymerisation of Wool Using Some Acrylate Monomers", submitted by Mr. Ranjit Kumar Sarkar for Ph.D. degree of Indian Institute of Technology, Delhi, embodies the results of original work carried out by him under my supervision in the Textile Technology Department, and has not been submitted for any other degree of any University to the best of my knowledge.

D.S. Varma (?)

(Prof. D.S. Varma)

Thesis Supervisor

ACKNOWLEDGMENT

The author wishes to record his deep sense of gratitude to Dr. D.S. Varma, Professor and Head of the Textile Technology Department at the Indian Institute of Technology, Delhi, for his constant and invaluable encouragement and painstaking supervision at every stage of this work.

He is grateful to Dr.(Mrs.) Indra K. Varma, Assistant Professor, Chemistry Department at the Indian Institute of Technology, Delhi, for her kind interest and active help in the progress of this work and for many helpful discussions.

Thanks are also due to the Director, Ahmedabad Textile Industry's Research Association, for the permission to use their X-ray unit.

It is a pleasure to acknowledge the co-operation received from the graduate students of the Textile Technology Department and also from the members of the staff.

Finally, the author wishes to thank Mr. M.P. Joseph for neat and accurate typing of the manuscript, and Mr. K.G. Padam for tracing the figures.

R. Sarkar

Ranjit Kumar Sarkar

CONTENTS

	Page
CHAPTER I : INTRODUCTION	1
Structure of Wool	4
Methods of Preparation of Graft Copolymers	11
Grafting Sites in Wool	15
Application of Graft Copolymers	16
REFERENCES	19
CHAPTER II : GRAFT COPOLYMERISATION	
2.1 INTRODUCTION	22
2.2 EXPERIMENTAL	37
2.2.1 Materials	37
2.2.2 Graft Copolymerisation	38
2.2.3 Molecular Weight Determination	40
2.3 RESULTS	42
2.3.1 Effect of Reaction Time on Grafting of Different Monomers	42
2.3.2 Optimization of the Conditions for the Grafting of Methyl Acrylate	42
2.3.2.1 Effect of Monomer Concentration	42
2.3.2.2 Effect of Initiator Concentration	43
2.3.2.3 Effect of Acid Concentration	43
2.3.2.4 Effect of Temperature	44
2.3.3 Molecular Weight	44
2.4 DISCUSSION	46
REFERENCES	55
CHAPTER III : X-RAY DIFFRACTION AND INFRA-RED STUDIES	
3.1 INTRODUCTION	59
3.2 WIDE ANGLE X-RAY DIFFRACTION BY FIBRES	62
3.3 INFRA-RED ABSORPTION SPECTRA OF FIBRES	65

	Page
3.4	EXPERIMENTAL
3.4.1	Wide Angle X-ray Diffraction Pattern
3.4.2	Apparatus for Obtaining Diffractograms
3.4.3	Average Crystallite Size
3.4.4	Infra-red Spectra
3.5	RESULTS
3.6	DISCUSSIONS
	REFERENCES
	84
CHAPTER IV : PHYSICAL PROPERTIES	
4.1	INTRODUCTION
4.2	EXPERIMENTAL
4.2.1	Density
4.2.2	Moisture Regain
4.2.3	Mechanical Properties
4.2.3.1	Load Elongation
4.2.3.2	Resilience
4.2.4	Dynamic Mechanical Properties
4.3	RESULTS
4.3.1	Density
4.3.2	Moisture Regain
4.3.3	Mechanical Properties
4.3.3.1	Stress-Strain Behaviour in Dry State
4.3.3.2	Stress-Strain Behaviour in Water
4.3.4	Resilience
4.3.5	Dynamic Mechanical Properties
4.4	DISCUSSION
	REFERENCES
	118
CHAPTER V : THERMAL BEHAVIOUR	
5.1	INTRODUCTION
5.2	EXPERIMENTAL
5.2.1	Thermogravimetric Analysis
5.2.2	Thermal Stability from TGA Data
	124

	Page
5.3 RESULTS	127
5.3.1 Analysis of Thermograms	127
5.3.2 Thermal Stability	130
5.4. DISCUSSIONS	133
REFERENCES	136
CHAPTER VI : GENERAL DISCUSSION AND SUMMARY	
Grafting vs. Homopolymerisation	137
Thermal Analysis	139
Effect of Nature of Monomer on Grafting Reaction	140
Effect of Reaction Conditions on Grafting	141
Location and Characterization of Grafts	142
Properties of Grafted Fibres	143
Suggestions for Further Work	146
