

Studies On Immobilized Enzyme Catalyzed Reaction System - Glucose - Glucose Oxidase

By

VINOD BIHARI

THESIS SUBMITTED TO THE INDIAN INSTITUTE OF
TECHNOLOGY, DELHI FOR THE AWARD
OF THE DEGREE OF DOCTOR OF PHILOSOPHY

DEPARTMENT
OF
CHEMICAL ENGINEERING

INDIAN INSTITUTE OF TECHNOLOGY, DELHI
NEW DELHI
AUGUST, 1975

C E R T I F I C A T E

This is to certify that the thesis entitled "Studies on Immobilized Enzyme Catalyzed Reaction System - Glucose - Glucose Oxidase" by Shri Vinod Bihari has been prepared under my supervision in conformity with the rules and regulations of the Indian Institute of Technology, Delhi. I further certify that the thesis has attained standard required for a Ph.D. degree of the Institute. The research report and results presented in the thesis have not been submitted for any degree in any other University.

(T.K.Ghose)

A C K N O W L E D G E M E N T

I wish to express my sincere gratitude to my research supervisor, Prof. Dr. Tarun. K. Ghose, for his esteemed guidance and helpful advice in settling many problems that arose during this Research work. The spirit of co-operation and free discussion in his laboratory helped not only in solving many problems but also in learning many things besides Bio-Engineering.

My thanks are due to all other staff members of Chemical Engineering Department, I.I.T. Delhi, for their, co-operation, encouragement, and constructive criticism during the course of this research project.

I would be failing in my duty if I do not thank Dr. Hari N. Asthana for his co-operation during the period of my writing thesis.

I am thankful to Shri Purnendu Ghosh, for his invaluable friendly company and assistance, I received, throughout the period of this research.

I thank all my friends and colleagues for rendering me their assistance as and when required during the course of investigation.

Vinod Bihari
(VINOD BIHARI)

Indian Institute of Technology,
Delhi.

TABLE OF CONTENTS

CERTIFICATE	ii
ACKNOWLEDGEMENT	iii
LIST OF FIGURES	vii
LIST OF TABLES	ix

CHAPTER ISection I

1.1. Introduction and objective	1
---------------------------------	---

Section II

1.2. Literature Survey	
1.2.1. Introduction	5
1.2.2. Available Techniques	7
1.2.3. Modified Properties	14
1.2.4. Kinetics: First order Kinetics in Glucose-Glucose Oxidase-Oxygen System	20
1.2.5. Enzyme Reactors	24
1.2.6. Mass Transfer in Heterogeneous Catalysis	29

CHAPTER IIMaterials and Methods

2.1. Carriers, Enzymes and Reagents, and Equipments	35
2.2. Immobilization methods	36
2.3. Activity assay and other Analytical methods	38

CHAPTER III

Experimental

Section I

3.1. Studies with enzyme - adsorbent Complex: Characterization of properties and column reactor studies	45
--	----

Section II

3.2. Studies with covalently bound enzyme: Characterization of properties.	48
--	----

Section III

3.3. Reactor studies: Performance and Mass Transfer studies in ideal Plug Flow reactor.	50
---	----

CHAPTER IV

Results

Section I

4.1. Studies with adsorbed enzyme preparations,	
4.1.1. Characterization of properties	58
4.1.2. Column Studies	76

Section II

4.2. Studies with CVB enzyme system	
4.2.1. Characterization of properties	97

Section III

4.3. Reactor Studies	
4.3.1. Performance	106
4.3.2. Diffusional Studies.	117

CHAPTER VKinetic and Masstransfer Expression

5.1. Michelis - Menten Kinetics and Masstransfer in immobilized enzyme system	124
5.2. Comparison of enzyme reactors	128
5.3. Diffusion studies	129

CHAPTER VIDiscussions and conclusionsSection I

6.1. Discussion	145
-----------------	-----

Section II

6.2. Conclusions	155
------------------	-----

TABLE OF NOMENCLATURE	159
-----------------------	-----

BIBLIOGRAPHY	162
--------------	-----

APPENDIX

Data on Reactor studies	169
Data on film diffusion studies	170
Data on Pore diffusion studies	173
Sample Calculations.	174.
