

OPTICAL COHERENCE MEASUREMENTS AND
HOLOGRAPHIC INTERFEROMETRY

by

GOURANGA BOSE

Thesis submitted to
Indian Institute of Technology, Delhi
for the award of Degree of
DOCTOR OF PHILOSOPHY

Department of Physics
Indian Institute of Technology, Delhi

FEBRUARY, 1978

i

ACKNOWLEDGEMENT

I am very grateful to the Director, I.I.T. for permitting me to carryout research.

I wish to thank Professor C.L.Mehta for his valuable guidance and constant encouragement.

I also wish to thank Messers C.S.Vikram, J.N.Maggo, D.Ranganathan, G.P.Agrawal, M.K.Sharma, B.S.Rao for valuable discussions.

The help of Messers S.Kumar, J.P.Dudeja and J.K.Sharma is gratefully acknowledged.

I am also thankful to Drs. I.Rattan and D.Ranganathan for help in preparing this thesis.

I am grateful to my colleagues Messers Anand Singh, P.N.Gupta, S.D.Malik and N.S.Gupta for technical help at both the research stage and in the actual preparation of this thesis.

(G.Bose)

CHAPTER		PAGE
	PART-I	1
I	MEASUREMENTS OF THE DEGREE OF COHERENCE :	1
	1.1 Introduction :	1
	1.2 Analysis of Simple Interference Experiment :	6
	1.3 van Cittert-Zernike Theorem :	10
	1.4 Experimental Set-up :	13
	1.5 Results :	16
	References :	51
II	MEASUREMENTS OF THE SECOND ORDER CORRELATION TENSOR :	52
	2.1 Introduction :	52
	2.2 Theory :	52
	2.3 Experimental Set-up and Results :	58
	References :	69
III	DETERMINATION OF THE PHASE OF THE COHERENCE FUNCTION :	70
	3.1 Introduction :	70
	3.2 Theory of the Exponential Filter :	73
	3.3 Construction of Exponential Filters :	79
	3.4 Visibility Measurements Using Exponential Filters :	81

3.5	Visibility Measurements By Two Superposed Sources	:	94
	References	:	99

PART-II

IV	COMBINATION OF TIME-AVERAGE AND STROBOSCOPIC TECHNIQUE IN HOLOGRAPHIC INTERFEROMETRY OF SINUSOIDAL VIBRATION	:	101
4.1	Introduction	:	101
4.2	Combination of Time-Average And Different Stroboscopic- Techniques	:	107
4.3	Comparison with Time-Average Holography	:	114
4.4	Conclusion	:	117
	References	:	118
V	HOLOGRAPHIC INTERFEROMETRY OF DAMPED OSCILLATIONS WITH TWO FREQUENCIES	:	119
5.1	Introduction	:	119
5.2	Theory	:	119
5.3	Conclusion	:	127
	References	:	128

APPENDIX

<u>Appendix A</u>	Wollaston Prism	:	129
<u>Appendix B</u>	Dependance of the visibility on the Orientations of the polaroids	:	136
	Biodata	:	139
