

KINETICS AND DYNAMICS OF ACID-CATALYSED HYDROLYSIS OF ACETIC ANHYDRIDE IN BATCH, SEMIBATCH AND CONTINUOUS FLOW STIRRED TANK REACTORS

By

RAGHUNATH HALDAR

Department of Chemical Engineering

*THESIS SUBMITTED
IN FULFILMENT OF THE REQUIREMENTS
FOR THE DEGREE OF
DOCTOR OF PHILOSOPHY*

**TO THE
INDIAN INSTITUTE OF TECHNOLOGY, DELHI
INDIA**

FEBRUARY, 1991

CERTIFICATE

This is to certify that the Thesis entitled, "KINETICS AND DYNAMICS OF ACID-CATALYSED HYDROLYSIS OF ACETIC ANHYDRIDE IN BATCH, SEMIBATCH AND CONTINUOUS FLOW STIRRED TANK REACTORS" being submitted by Mr. Raghunath Haldar to the Indian Institute of Technology, Delhi, for the award of the degree of 'DOCTOR OF PHILOSOPHY' is a record of the bonafide research work carried out by him. Mr. Haldar worked under my guidance for the submission of this thesis which to my knowledge has reached the requisite standard.

The Thesis or any part thereof has not been submitted to any University or Institute for the award of any degree or diploma.

D. Phaneswara Rao

Dr. D. Phaneswara Rao
Professor

Department of Chemical Engineering
Indian Institute of Technology,
New Delhi-110016

ACKNOWLEDGEMENTS

It is with great pleasure that I express my indebtedness, deep regards, whole hearted gratitude and thanks to my respected teacher and Project Guide, Prof. D. Phaneswara Rao for suggesting the problem and giving necessary information, vigilant guidance and continuous inspiration for completing the project.

I wish to acknowledge with deep gratitude the financial support and facilities provided by Prof. M.K. Sarkar, and Prof. K. Vasudeva, Head of the Chemical Engineering Department which enabled me to execute the Project.

I am also indebted to Dr. R. Varadarajan, Chemistry Department for his help, inspiration and valuable suggestions in connection with reaction kinetic modelling.

I am also thankful to faculty members of the Chemical Engineering Department, in particular Prof. M. K. Sarkar and Dr. B.K. Guha for their encouragement during the course of the work.

I acknowledge with thanks the help and encouragement given by my colleagues, Mrs. N. Datta, Miss S. Mohanty, Mr. N.C. Panja, Dr. M. Sarkar, Mr. A.K. Jain, Mr. C. Mukherjee, Mr. A. Dey and Miss N. Mitra.

I am also thankful to the supporting staff members of the Postgraduate Research Laboratory, Mr. R.D. Tiwari and Mr. Satish Kumar, for their assistance in the laboratory. I owe many thanks to Mr. V.P. Gulati, for typing very patiently all the research papers and Thesis material.

Finally, I also wish to express my thanks to all of my many other friends who have helped me directly or indirectly in completing the Project.

February, 1991
