

HOT CARRIER TRANSPORT IN SEMICONDUCTORS

Jyoti Kamal

Thesis submitted to Indian Institute of Technology,
Delhi, for partial fulfilment of the Degree of
Doctor of Philosophy

1970

ACKNOWLEDGEMENTS

The first and foremost acknowledgement that I make to Prof. M.S. Sodha, Head of the Physics Department and Dean of the Faculty of Science is not out of a sense of routine customary duty that a research scholar owes to the guide, but with a deep feeling of personal gratitude. In spite of his multifarious duties and a very busy work schedule, his encouragement and inspiration have been constant; his drive and vigilance over my efforts, - persistent. I deem it a matter of no mean privilege to be his first girl research scholar, reluctantly accepted but assiduously helped.

I offer my grateful thanks to Dr. S.K. Sharma, presently at the University of Alberta, Canada, for many fruitful discussions and suggestions at various stages of this work.

My thanks are also due to Dr. A.K. Ghatak, Dr. D.P. Tewari, Dr. B. Buti, other members of the staff and my colleagues in the Physics Department of the I.I.T., for helpful discussions and many acts of kind cooperation. I owe my thanks to Mr. S.L. Aneja for an efficient typing of the thesis.

The Council of Scientific and Industrial Research has provided financial assistance for this work and the same is gratefully acknowledged.

Jyoti Kamal

C O N T E N T S

	PREFACE	..	1
Chapter			
I	TRANSPORT PHENOMENA IN DEGENERATE SIMPLE MODEL SEMICONDUCTOR AT HIGH ELECTRIC FIELDS	..	12
	1.1 Introduction	..	12
	1.2 Evaluation of Effective Electron Temperature	..	17
	1.3 Transport Coefficients	..	22
	1.4 Discussion and Numerical Results	..	28
	1.5 Limitations and Approximations	..	31
II	HOT CARRIER D.C. CONDUCTION IN DEGENERATE MANY VALLEY SEMICONDUCTOR	..	36
	2.1 Introduction	..	36
	2.2 Anisotropy of the Relaxation Time	..	39
	2.3 Effective Electron Temperature	..	42
	2.4 Expression for Conductivity	..	46
	2.5 Numerical Calculations	..	52
	2.6 Discussion	..	52
III	HIGH FIELD TRANSPORT PHENOMENA IN n-InSb AT HIGH TEMPERATURES	..	56
	3.1 Introduction	..	56
	3.2 Electron Temperature	..	60
	3.3 Expression for Transport Coefficients	..	66
	3.4 Numerical Results and Discussion	..	72
	3.5 Limitations and Approximations	..	74

Chapter

IV	HIGH FIELD TRANSPORT PHENOMENA IN SIMPLE MODEL SEMICONDUCTORS AT LOW TEMPERATURES	.. 78
4.1	Introduction	.. 78
4.2	Calculation of Relaxation Time of Electron and its Effective Temperature	.. 81
4.3	Transport Coefficients	.. 84
4.4	Discussion	.. 86
V	TRANSPORT PHENOMENA IN THIN METALLIC FILMS AT HIGH TEMPERATURES	.. 91
5.1	Introduction	.. 91
5.2	Appropriate Relaxation Time of Electrons	.. 93
5.3	Diffuse Scattering at the Boundaries	.. 95
5.4	Transport Coefficients	.. 97
5.5	Discussion	.. 100
5.6	Limitations and Approximations	.. 101
Appendix A		.. 103
Appendix B		.. 105
Appendix C		.. 108
