

**INTERACTION OF ELECTROMAGNETIC WAVES WITH PLASMAS**

**Predhiman Krishan Kaw**

**Thesis submitted to Indian Institute of Technology  
Delhi, for partial fulfilment of the Degree of  
Doctor of Philosophy  
1966**

### ACKNOWLEDGEMENTS

The author wishes to express his deep sense of gratitude to Prof. M.S. Sodha for his valuable guidance, kind encouragement and inspiration.

The author also wishes to express his sincere thanks to Prof. S.C. Jain, Prof. W.E. Duncanson, members of the Physics Department and to his other colleagues for the kind encouragement and help that was extended to him at all stages of this work. Thanks are also due to Shri S.L. Aneja for an efficient typing of the thesis and related manuscripts.

This research was supported by the Indian Institute of Technology, Delhi and the Council of Scientific and Industrial Research, India.

Predhiman Krishan Kaw

## TABLE OF CONTENTS

Chapter	Page
ACKNOWLEDGEMENTS	i
PREFACE	1
<b>I</b> NONLINEAR GENERATION OF HARMONICS AND COMBINATION FREQUENCIES IN A PLASMA	17
1. Introduction.	17
2. Boltzmann's Transfer Equation	20
2.1 Formulation	20
2.2 Time-dependences of the Components of Distribution Function.	26
3. Harmonic and Combination Frequency Components in the Current Density	34
3.1 Homogeneous Neutral Plasmas	35
(a) Two Microwave Fields only	35
(b) A D.C. Field and Two Microwave Fields	48
(c) Effect of a Magnetic Field	56
(d) Generation Around Plasma Resonance	63
(e) Generation due to Non-uniform Electric Fields	63
(i) Elementary Theory	64
(ii) Kinetic Theory	67
3.2 Inhomogeneous Plasmas	81
(a) Two Microwave Fields	81
(b) Effect of a Magnetic Field	92
(c) Around Plasma Frequency	97

## Chapter

## Page

3.3	Plasmas with Induced Inhomogenities	..	98
(a)	Excess Ionisation due to an Electromagnetic Field	..	98
(b)	Modulation of Ionization Frequency	..	99
(c)	Induced Time-dependence of Electron Density	..	100
(d)	Time-dependence of Electron Density Through Electron Temperature	..	101
4.	Propagation of Harmonic and Combination Frequency Electromagnetic Waves in a Plasma	..	101
4.1	Propagation in a Homogeneous Infinite Plasma	..	104
(a)	In the presence of a D.C. Electric Field	..	104
(i)	Nonlinear Growth of the Harmonics and Combination Frequencies	..	108
(ii)	Magnitude of the Harmonic and Combination Frequency Components in the Reflected Wave from a Plasma-free space Interface	..	113
(b)	In the presence of a Magnetic Field	..	124
(i)	Nonlinear Growth of the Third Harmonic	..	127
(ii)	Third Harmonic in the Reflected Wave	..	130

## Chapter

Page

4.2	Propagation in an Inhomogeneous Infinite Plasma..	135
(a)	In the absence of a Magnetic Field ..	135
(1)	Nonlinear Growth of the Harmonic and Combination Frequency Waves ..	138
(11)	Magnitude of the Reflected Components ..	140
(b)	Effect of a Magnetic Field ..	143
(1)	Nonlinear Growth of the Second Harmonic ..	144
(11)	Second Harmonic in the Reflected Wave ..	148
5.	Conclusion ..	152
6.	Appendices ..	153
A.	Evaluation of the Components of Distribution Function for a Homogeneous Plasma ..	153
B.	(a) Evaluation of the Components of $f$ in the Presence of a D.C. Electric Field ..	156
	(b) Limitations of the Analysis in the Presence of a D.C. Electric Field..	161
C.	Components of the Distribution Function in a Homogeneous Magnetoplasma ..	162
D.	Components of the Distribution Function for an Inhomogeneous Plasma ..	168
E.	Components of the Distribution Function for an Inhomogeneous Magnetoplasma ..	174
	Bibliography ..	179

Chapter	Page
<b>II</b> <b>NONLINEAR PROPAGATION OF ELECTRO-</b> <b>MAGNETIC WAVES IN A PLASMA</b>	.. 182
<b>1.</b> <b>Nonlinear Interaction of a Number</b> <b>of Electromagnetic Waves in a</b> <b>Magnetoplasma</b>	.. 182
<b>1.1</b> <b>Nonlinear Current Density in</b> <b>a Magnetoplasma</b>	.. 183
<b>1.2</b> <b>Mutual Interaction of</b> <b>Electromagnetic Waves in a</b> <b>Magnetoplasma</b>	.. 193
<b>1.3</b> <b>Discussion</b>	.. 197
<b>2.</b> <b>Reflection and Transmission of</b> <b>Electromagnetic Waves from a</b> <b>Nonlinear Anisotropic Slab Between</b> <b>Two Linear Isotropic Media</b>	.. 202
<b>2.1</b> <b>Growth of the Two Modes of</b> <b>Propagation in a Nonlinear</b> <b>Slab</b>	.. 203
<b>2.2</b> <b>Reflected and Transmitted</b> <b>Components of an Electro-</b> <b>magnetic Wave from a Non-</b> <b>linear Anisotropic Slab</b>	.. 207
<b>2.3</b> <b>Reflection and Transmission</b> <b>from an Isotropic Slab</b>	.. 212
<b>2.4</b> <b>Discussion</b>	.. 215
<b>Bibliography</b>	.. 217
<b>III</b> <b>LINEAR PROPAGATION OF ELECTROMAGNETIC</b> <b>WAVES IN A PLASMA</b>	.. 218
<b>1.</b> <b>Linear Demodulation of an</b> <b>Amplitude Modulated Electro-</b> <b>magnetic Wave in a Dispersive</b> <b>Medium</b>	.. 218

Chapter	Page
2. Modulation of Electromagnetic Waves by Acoustic Waves in a Plasma ..	222
2.1 Modulation of Complex Conductivity ..	223
2.2 Modulation of an Electromagnetic Wave by an Acoustic Wave Propagating at an Angle $\phi$ to it ..	226
2.3 Effects in the Ionosphere and Rocket Exhausts ..	231
(a) Ionosphere ..	231
(b) Rocket Exhaust of a Medium Rocket ..	232
3. Doppler Effect of Modulation Frequencies in Amplitude Modulated Signals ..	234
Bibliography ..	236
 IV MISCELLANEOUS ELECTROMAGNETIC AND OPTICAL PHENOMENA ..	 238
1. Conductivity of Dust Laden Gases ..	238
1.1 Electron Density ..	238
1.2 Electron Collision Frequency with Solid Particles ..	241
1.3 Electrical Conductivity of Dust Laden Gases ..	244
2. Optimum Seeding of Helium with Caesium ..	246
2.1 Electron Collision Data ..	247
2.2 Condition for Optimum Seeding ..	249
2.3 Relation Between Electron Temperature and Electric Field ..	251

3. Image Formation in a Homogeneous Refracting Medium	..	256
3.1 Position of the Image for a Point Object	..	257
3.2 Equation of the Image for an Object of Finite Dimensions	..	262
3.3 Discussion	..	263
4. Image Formation by an Optically Stratified Medium: Optics of Mirage and Looming	..	265
4.1 Ray Tracing in a Stratified Medium	..	269
4.2 Position and Form of the Image	..	273
4.3 Maxima and Minima in the Range of Observation and Heights of the Object	..	277
(a) Maximum Range	..	278
(b) Minimum Range	..	280
(c) Minimum and Maximum Height of Objects	..	281
4.4 Discussion	..	282
