

ELECTROMAGNETIC WAVE PROPAGATION
IN MAGNETIZED FERRITES

by

N.C. Srivastava

Thesis submitted to the Indian Institute of Technology, Delhi
for the award of the Degree of
DOCTOR OF PHILOSOPHY

Department of Physics
Indian Institute of Technology, Delhi
March, 1977

ACKNOWLEDGEMENT

I wish to express my deep sense of gratitude to Professor M.S.Sodha and Dr. D.P.Tewari for their valuable guidance, kind encouragement and inspiration throughout the course of this work.

I am also grateful to Professor A.K.Ghatak for useful discussions and encouragement.

It is a pleasure to thank Mr. S.S.Sharma and Mr. G. Umesh for the much needed help in the preparation of the present thesis. I am also thankful to my other colleagues in the Electrophysics Group, I.I.T. Delhi for their cooperation.

Sincere thanks are due to Mr. T.N.Gupta for the efficient typing and his help in the preparation of this thesis.

Neeraj C. Srivastava
(N.C.Srivastava)

CONTENTS

CHAPTER		Page
	PREFACE	1
 <u>PART - I</u> 		
I	ELECTROMAGNETIC WAVE PROPAGATION IN MAGNETIZED PLANAR FERRITE	
	1.1 Introduction	18
	1.2 The Coordinate Transformation	21
	1.3 Plane Wave Propagation	27
	1.4 Propagating and Non-propagating Regions	31
	1.5 Polarization of Modes	38
	1.6 Conclusions	41
	REFERENCES	42
II	REFLECTION OF ELECTROMAGNETIC WAVES FROM PLANAR FERRITE	
	2.1 Introduction	44
	2.2 Reflection of Plane Waves	47
	a) Reflection & Transmission Coefficients	47
	b) The Regions of Ordinary & Total Reflection	52
	2.3 Phaseshift on Total Reflection	63
	2.4 Reflection from Lossy Ferrite	74
	2.5 Summary	84
	REFERENCES	85
III	ELECTROMAGNETIC WAVE PROPAGATION IN WAVEGUIDES PARTIALLY LOADED WITH MAGNETIZED PLANAR FERRITE	
	3.1 Introduction	87
	3.2 Theory	89
	3.3 Numerical Results and Discussions	95
	REFERENCES	105

PART - II

IV	PROPAGATION OF SURFACE WAVES THROUGH THE GAP BETWEEN OPPOSITELY MAGNETIZED FERRITE SUBSTRATES	
	4.1 Introduction	106
	4.2 Theory	109
	A) Magnetostatic Analysis	109
	B) Rigorous Analysis	113
	4.3 Numerical Results and Discussions	115
	4.4 Conclusions	121
	REFERENCES	123
V	MAGNETOSTATIC MODES OF A SLAB OF PLANAR FERRITE	
	5.1 Introduction	125
	5.2 Theory	126
	A) Air-Ferrite-Air Strata	128
	B) Air-Ferrite-Metal Strata	133
	5.3 Numerical Results and Discussions	135
	5.4 Conclusions	136
	REFERENCES	140
VI	ELECTROMAGNETIC WAVE PROPAGATION ALONG CURVED FERRITE SURFACES	
	6.1 Introduction	141
	6.2 Theory	142
	a) Magnetostatic Solution	142
	b) Electromagnetic Solution	145
	6.3 Magnetostatic Surface Waves in Curved Slab	147
	a) Dispersion Relation	147
	b) Special Cases	150
	c) General Case	153
	6.4 Conclusions	155
	REFERENCES	157

PART - III

VII	MODULATION OF ELECTROMAGNETIC WAVES BY TIME DEPENDENT MAGNETIC FIELDS IN FERRITES	
	7.1 Introduction	158
	7.2 The rf Magnetization	159
	7.3 Modulation in Infinite Medium	161
	7.4 Propagation Across Interfaces: Slab Problem	163
	7.5 Numerical Results and Discussions	166
	APPENDIX-I	169
	REFERENCES	172
