ZONED DIELECTRIC LENS for WIDE ANGLE SCANNING

Project Report
By
M. Mohan

Submitted in Partial Fulfilment of

The Requirement for the Degree of

Master of Technology

in

Radar Engineering

Department of Electrical Engineering

Indian Institute of Technology

DELHI

August, 1973.

CERTIFICATE

The project and project report have been approved for partial fulfilment of the requirement of the degree of Master of Technology in Radar Engineering.

Approved

Examiners

ACKNOWLEDGEMENT

The author gratefully acknowledges the valuable help, guidance and consistent encouragement rendered by Prof. P.V.Indiresan, Head School of Radar Studies, in the development and execution of this project.

2. The author is deeply indebted to Prof.R.K.Arora for his close association and technical guidance at all stages of development of this project.

3. Very special thanks are due to Dr V.D.Aggarwal, Dr.(Miss) B.Bhat, Mr S.Swaminathan, and Mr G.R. Mehta for their valuable guidance and help during the course of the project work. My colleague Shri S.Muthukaruppan deserves very special mention for his intimate association and valuable suggestions in planning and developing this project.

4. The author is also thankful to the staff of the Radar School, Radar Laboratory, Central Workshop, Instrument Design and Development Centre, and the Photographic Section for their close association and unstinted co-operation at various stages of the project work.

M. Mohan.

CONTENTS

Chapter I :	Introduction	1
Chapter II:	Applicability of ray optics for microwave lens design	10
Chapter III:	Radiation patterns	23
Chapter IV:	Propogation through solid dielectrics	42
Chapter V:	Aplanatic Zoned Dielectric Lens	58
Chapter VI:	Technical tolerances and lens aberrations	73
Chapter VII:	Measurement of refractive index of a dielectric	91
Chapter VIII:	Design and Fabrication	100
Chapter IX:	Measurements	111
Chapter X:	Display system	127
Chapter XI:	Further Improvements and Applications	136
