

STUDIES ON HYDROGEN BONDING AND MOLECULAR AGGREGATION

A THESIS

Submitted for the

DEGREE OF DOCTOR OF PHILOSOPHY

Of the

INDIAN INSTITUTE OF TECHNOLOGY, DELHI

By

SURENDRA SHARMA

DEPARTMENT OF CHEMISTRY

INDIAN INSTITUTE OF TECHNOLOGY, DELHI

NEW DELHI - 110029

MAY, 1974.

TO MY BELOVED MOTHER

C E R T I F I C A T E

This is to certify that the thesis entitled "Studies on Hydrogen Bonding and Molecular Aggregation" being submitted by Mr. Surendra Sharma to the Indian Institute of Technology, Delhi, for the award of the Degree of Doctor of Philosophy in Chemistry is a record of bonafide research work carried out by him. Mr. Sharma has worked under my guidance and supervision and has fulfilled the requirements for the submission of this thesis.

The results contained in this thesis have not been submitted, in part or in full, to any other University or Institute for the award of any degree or diploma.

(Gobinda Basu)
Thesis Supervisor.

A C K N O W L E D G E M E N T S

The author wishes to express his deep sense of gratitude to Dr. Gobinda Basu, Assistant Professor, Chemistry Department, for his valuable guidance and enlightend discussions failing which the present work would have been nigh impossible.

To Dr. A. P. Rao, the author would like to express his indebtedness for the encouragement and wise counsel, he has received, in so abundant a measure, through out the present investigation. He is grateful to Head of the Chemistry Department for providing the laboratory facilities.

It is a pleasure to acknowledge the cooperation received from all the members of the faculty and research scholars of the Chemistry Department with the special mention of Mr. A. Saxena. The author takes an opportunity to thank Dr. U. S. Tewari, Dr. R. C. Maheshwari and Mr. Devendra Singh for helping him at all odd hours and also for proof reading of Manuscript.

Thanks are also due to the members of non-teaching staff of the Chemistry Department for cheerfully coming to the assistance of the author on countless occasions. He would like to make a special mention of Mr. Bala Dutt for showing keen interest in the execution of experimental work.

Thanks are also due to Council of Scientific and Industrial Research and Indian Institute of Technology, New Delhi for the award of research fellowship.

The author's thanks also go to Mr.T.R.Sharma and Mr.N.L.Arora for executing the task of typing the manuscript and tracing the figures with great care and thoroughness respectively.

Last but not least, the love and inspiration rendered to the author by Deepa Basu, family members and other well wishers are beyond words.

(SURENDRA SHARMA)

	<u>PAGE</u>
<u>CHAPTER-I</u>	
Introduction	1-14
1.1 What is a Hydrogen Bond	1
1.2 Theoretical Concept of Hydrogen Bond	2
1.3 Proton Mobility and Hydrogen Bond	4
1.4 Experimental Approach to Hydrogen Bonding	7
1.5 Present Investigation	10
Figure-1	
<u>S E C T I O N - A</u>	
Studies in Infrared Region	
Experimental	16
Band Analysis	18
<u>CHAPTER-II</u>	
The Association of Crotonic Acid and Tribromoacetic Acid and Solvent Effects.	21-41
Crotonic Acid-	
2.0 Introduction	21
2.1 Results and Discussions	22
2.2 Solvent Effects	28
Tribromoacetic Acid-	33
2.3 Results and Discussion	34
2.4 Solvent Effects	37
Tables- (1-3)	
Figures- (2-5)	

CHAPTER-III

Heteroassociation of Crotonic Acid with Tribromoacetic Acid and Solvent Effects.	42-57
3.0 Introduction	43
3.1 Results and Discussions	44
3.2 Solvent Effects on Heteroassociation	53
Tables-(4-9)	
Figures-(6-13)	

CHAPTER-IV

Studies on Acid Base Equilibria	58-77
4.1 Introduction	59
4.2 System: Crotonic acid with tripropylamine-Results	61
4.3 Discussion	66
4.4 System: Crotonic Acid with Tributylamine-Results	70
4.5 Species Present in CCl_4	71
4.6 System: Crotonic Acid with Triphenylamine -Results and Discussion	73
4.7 System: Crotonic Acid with Triethanolamine: Results and Discussion	75
Table- (10-13)

Studies in Visible Region

CHAPTER-V

Aggregation Studies of Methyl Violet	79-117
5.1 Introduction	80
5.2 Experimental	83

CHAPTER-V

5.3 Results and Discussion	85
5.4 Nature of the Species Present in Solvent Mixtures	94
5.5 Temperature Effects	98
5.6 Theoretical Approach	103
5.7 The Derivation of Dimer Spectra of Methyl Violet	114

Table- (14-16)

Figures- (19-31)

CHAPTER-VI

Aggregation Studies of Acridine Orange (Base) 118-145

6.1 Introduction	119
6.2 Experimental	121
6.3 Results and Discussion	122
6.4 Temperature Effects	131
6.5 Estimation of Association Constant	137
6.6 Theoretical Approach-Derivation of Dimer Spectra of Acridine Orange(base)	142
