HEAT TRANSFER IN SOLAR THERMAL PROCESSES

A Thesis in
Solar Energy

by
Ashok Kumar Seth

Submitted in Partial Fulfilment
of the requirements
for the Degree of

DOCTOR OF PHILOSOPHY

June 1979

This Thesis Is Dedicated To My Parents
And Other Members Of My Family By The
Blessings Of Whom I Have Been Able To
Rise To This Level.

ACKNOWLEDGEMENTS

The author wishes to express his sincere appreciation to Professor M.S. Sodha, Head, Centre of Energy Studies, for his inspiring guidance and insight during the course of investigations reported in the manuscript.

The author is grateful to Professor S.S. Mathur and Professor H.P. Garg for some helpful discussions.

I am particularly indebted to Dr. G.N. Tiwari, Research Associate, Centre of Energy Studies by whose kind assistance this work has obtained the character of thesis for the Doctor's Degree and whose valuable advice has always helped me during its progress.

The aid of Professor K.D. Sharma, Head, Computer Centre in work with computer is greatly appreciated.

I am grateful to Mr. Ashwani Kumar, Mr. P.K. Gogna and Mr. P.K. Jain for assisting me in the revision of the manuscript.

Miss Neelam has typed the manuscript and with considerable skill, for which I give her my thanks.

My parents and other members of my family deserve my humble thanks for their unending tolerance and moral support during the course of the work.

Ashok Kumar Seth

(ASHOK KUMAR SETH)

	ACKNOWLEDGEMENTS	
	LIST OF FIGURES	
	INTRODUCTION	1
CHAPTER I	PLACEMENT OF INSULATION IN A CONCRETE WALL	
	1. Introduction	16
	2. Analysis	17
	3. Numerical Results and Discussion	23
	4. Conclusions	30
	Appendix	32
	References	36
CHAPTER II	PERIODIC HEAT TRANSFER THROUGH HOLLOW CONCRETE SLABS: OPTIMUM PLACEMENT OF AIR GAP	
	1. Introduction	38
	2. Analysis	41
	3. Numerical Results and Discussion	47
	4. Conclusions	56
	References	58

CHAPTER III	PERIODIC VARIATION OF GROUND TEMPERATURE WITH DEPTH AND TIME: EVALUATION OF THERMAL DIFFUSIVITY FROM OBSERVED VARIATION OF GROUND TEMPERATURE	
1.	Introduction	59
2.	Analysis	61
3.	Experiment	66
	References	71
CHAPTER IV	PERIODIC HEAT TRANSFER WITH TEMPERATURE DEPENDENT THERMAL CONDUCTIVITY	
1.	Introduction	72
2.	Analysis for periodic surface temperature	74
3.	Analysis for a sunlit surface	82
4.	Discussion of results	87
5.	Conclusions	97
	References	99
CHAPTER V	TRANSIENT RISE OF PLATE TEMPERATURE IN FLAT PLATE SOLAR COLLECTORS	
1.	Introduction	100
2.	Analysis	101
	Steady state plate temperature	
	Growth of plate temperature after stoppage of fluid flow	104
3.	Experiment	111
4.	Numerical results and discussion	115
	References	118
