ACKNOWLEDGEMENTS

I wish to express my deep sense of gratitude to Prof. Tarun K. Chose, Head Mechanical Engineering Division and Senior Professor, Department of Chemical Engineering, Indian Institute of Technology, Delhi, under whose supervision I worked for three and half years. His guidance and encouragement have been a constant source of inspiration for me. I express my indebtedness to him.

I am also grateful to Prof. P.M. Sahgal, Head of the Department of Chemical Engineering, Indian Institute of Technology, Delhi, for providing laboratory facilities.

The author is extremely thankful to Professors M.N. Shama and D.V. Rago, Department of chemical Technology, Bombay University, for their keen interest in my research work. The author is also grateful to Dr. D.V. Tashane, Reader in Bombay University (U.C.T) for his timely encouragement.

Thanks are also due to Dr. M.R. S. Iyengar, Director Antibiotics and Microbial Products Division, Alkabi Chemical Works, Co. Ltd., Baroda, for granting me the leave to submit my thesis.

The cooperation and help rendered by Mr. S.K. Targun, Mr. V.S. Misra, Mr. S.N. Mahopadhyay, and Mr. C.P. Divedi, is gratefully acknowledged. The help of Mr. S. Sen Ray (JTA)

and Mr. Ben Kishan (SEA) is also acknowledged.

The author is extremely grateful to his wife (Suman) for her unremitting cooperation.

The author thanks Mr. R.H. Shukla for his commendable typing of the manuscript.

CERTIFICATE

This is to certify that the thesis entitled "Studies on the Kinetics of Cellulase Production" by Shri Anrendra Nath Pathak has been prepared under my supervision in conformity with the rules and regulations of the Indian Institute of Technology, Delhi. I further certify that the thesis has attained a standard required for a Ph.D. Degree of the Institute. The research report and results presented in the thesis have not been submitted for any degree in any other University.
