## A C K N O W L E D G E M E N T S

I feel great pleasure in expressing my profound regard and gratitude to Prof. S.S. Mathur for his invaluable guidance, kind encouragement and inspiration without which the present work would not have been possible.

I am also greatly indebted to Prof. M.S. Sodha for his fruitful suggestions and encouragement during the course of this work.

I also wish to express my sincere thanks to members of the Physics Department, Dr. V.K. Tripathi and Mr. R.P. Gupta (Chemical Engineering Department) for the kind help that has been extended to me at various stages of this work.

This work was financed by NSTS (NCERT, India). Thanks are also due to Mr. D.R. Joshi and Mr. V.P. Sharma for the efficient typing of the present thesis.
