ACKNOWLEDGEMENTS

I acknowledge with great pleasure the guidance and encouragement received from Professor Dr. Bharathi Bhat throughout the course of this work.

I extend my sincere thanks to all the scientific staff of microwave group, Centre for Applied Research in Electronics, for their help and moral support during this course of work.

For the course of this work, I was sponsored by Maulana Azad College of Technology, Bhopal under Quality Improvement Programme of Ministry of Education, Govt. of India. This is thankfully acknowledged.

I am very much thankful to Mr. Sodhi for preparing the drawing.

Finally I am thankful to my wife for her moral support during the course of this work.

(ANUP KUMAR TIWARI)

C E R T I F I C A T E

This is to certify that the work reported in this thesis entitled "Investigations on Dielectric Integrated Guides for Millimeter Wave Applications" by Mr. Anup Kumar Tiwari has been carried out under my guidance and supervision. The results contained in it have not been submitted in part or in full to any other University or Institute for award of any degree or diploma.
