ACKNOWLEDGEMENTS

I take this opportunity to express my profound sense of gratitude to Professor A. K. Ghatak and Professor M. S. Sodha under whose supervision and guidance I had the privilege to carry out the present research work. I am also thankful to Dr. I.C. Goyal for many fruitful discussions.

My thanks are also due to Dr. D.P.S. Malik, Mr. Arun Kumar, Miss Anjana Gupta and many other colleagues for their kind help.

I gratefully acknowledge the financial support of the N.C.E.R.T (India)

K. THYAGARAJAN.
