

INVESTIGATIONS IN ATMOSPHERIC AND INSTRUMENTAL OPTICS

Anil Kumar (Aggarwal)

**Thesis submitted to Indian Institute of Technology, Delhi,
for partial fulfilment of the degree of
DOCTOR OF PHILOSOPHY
1967**

ACKNOWLEDGEMENT

The author wishes to express his deep sense of gratitude to Prof. M.S. Sodha for his valuable guidance, kind encouragement and inspiration.

The author is greatly indebted to Dr. P.K. Kaw for critical comments and valuable suggestions at various stages of investigation. He is also grateful to Prof. K. Majumdar of Allahabad University for suggesting the problem, discussed in Chapter VII. Thanks are also due to Shri S.S.Goel for an efficient typing of the thesis and related manuscripts.

The author also wishes to express his appreciation for the Director, Indian Institute of Technology, Delhi, for his kind support of these investigations.

TABLE OF CONTENTS

	Page
ACKNOWLEDGEMENT	-i-
LIST OF PUBLICATIONS BY THE AUTHOR	ii
LIST OF TABLES	vii
LIST OF ILLUSTRATIONS	ix
PREFACE	xii

PART I

ATMOSPHERIC OPTICS; REFRACTION THROUGH HOMOGENEOUS AND STRATIFIED MEDIA.	1
---	---

CHAPTER I

IMAGE FORMATION BY A HOMOGENEOUS REFRACTING MEDIUM	2
1. Introduction	2
2. Position of the Image for a Point Object	5
3. Equation of the Image for an Object of Finite Dimension	13
4. Discussion	16
References	17

CHAPTER II

IMAGE FORMATION BY AN OPTICALLY STRATIFIED MEDIUM; OPTICS OF MIRAGE AND LOOMING	18
1. Introduction	18

	Page
2. Variation of Refractive Index with Height	23
3. Ray Tracing in a Stratified Medium	24
4. Position and Form of the Image	31
5. Maxima and Minima in the Range of Observation and Height of the Object	39
5.1 Maximum Range	39
5.2 Minimum Range	41
5.3 Minimum and Maximum Height of Objects	43
6. Discussion	44
References	48
APPENDIX II-A	
Double Image Formation in a Stratified Medium	50

CHAPTER III

OPTICAL MEASUREMENT OF ATMOSPHERIC REFRACTIVE INDEX GRADIENT AND LAPSE RATE OF TEMPERATURE	54
1. Introduction	54
2. Measurement of Atmospheric Refractive Index Gradient over a Plane Surface	57
3. Measurement of Atmospheric Refractive Index Gradient over a Curved Cold Surface	68

	Page
4. Discussions of New Results	72
References	74

PART II

PERFORMANCE OF IMAGE FORMING INSTRUMENTS.	75
---	----

CHAPTER IV

APPARENT SEPARATION AND INTENSITIES OF TWO CLOSE OBJECTS	76
1. Introduction	76
2. Apparent Separation and Intensity Ratio of Objects in a Telescope	77
3. Apparent Separation and Intensity Ratio of Objects in a Microscope (Coherent Illumination)	83
4. Discussion	95
References	96

CHAPTER V

ON LIMIT OF RESOLUTION OF A TELESCOPE	97
1. Introduction	97
2. Criterion of Resolution	99
3. Resolution of Bright Objects	102
4. Resolution of Grey Objects	110
5. Resolution of Objects of Unequal Intensity in an Annular Aperture Telescope	115
6. Discussion	119
References	120

CHAPTER VI

ON LIMIT OF RESOLUTION OF A MICROSCOPE (COHERENT ILLUMINATION)	121
1. Introduction	121
2. Resolution of Bright Objects	123
3. Resolution of Grey Objects	130
4. Discussion	133
References	133

PART III

PRELIMINARY DESIGN OF ACHROMATIC COLLIMATOR AND CAMERA SYSTEMS FOR SPECTROGRAPHS	134
--	-----

CHAPTER VII

PRELIMINARY DESIGN OF ACHROMATIC COLLIMATOR AND CAMERA SYSTEMS FOR SPECTROGRAPHS	135
1. Introduction	135
2. Condition for Achromatism of Combination of Two Lenses Separated by a Distance	136
3. Design of Achromatic Collimating and Camera Systems in spectro- graphs	140
4. Discussion	141
References	143
