

A BIOMECHANICAL STUDY OF
LUBRICATION MECHANISM IN
HUMAN JOINTS

KRISHNA MANOHAR

Submitted to the Indian Institute of Technology, Delhi
for the award of the degree of

DOCTOR OF PHILOSOPHY
in Mathematics

Department of Mathematics,
Indian Institute of Technology,
Hauz Khas, New Delhi - 110029

1980

CERTIFICATE

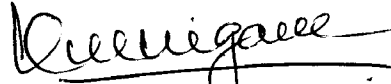

We are satisfied that the thesis presented by KRISHNA MANOHAR is worthy of consideration for the award of the degree of Doctor of Philosophy and is a record of the original bonafide research work carried out by him under our guidance and supervision and that the results contained in it have not been submitted in part or full to any other university or Institute for award of any degree/diploma.

Supervisors of the candidate

(M.P. Singh)

Head, Centre for Atmospheric Sciences

(K.M. Nigam)

Lecturer, Centre for Atmospheric Sciences

(K.K. Chaudhary)

Asst. Prof., Department of Applied Mechanics

ACKNOWLEDGEMENTS

The author feels immense pleasure to put on record his deep sense of indebtedness and gratitude to his supervisors Professor M.P.Singh, Head, and Dr. K.M. Nigam, Lecturer at the Centre for Atmospheric Sciences, and Dr. K.K. Chaudhry, Assistant Professor, Department of Applied Mechanics, I.I.T. Delhi, for introducing him to the field of Bio-mechanics and for their untiring guidance in the field of "Mathematical Modelling of Synovial Joints". Their fruitful discussions and constant encouragement inspired the author at all stages of this work.

The author is thankful to his friends at Agra College, Agra and at I.I.T., Delhi in particular to Dr. N.M. Bujurke and Dr. S.Jaggi, Scientists at the Centre for Atmospheric Sciences for their constructive criticism and valuable suggestions in the preparation of this thesis. Also, thanks are due to all those friends whose personal help and co-operation made his stay in Delhi so pleasant.

The author is grateful to the Director, I.I.T.Delhi and the former as well as the present Head of the Department of Mathematics for selecting and providing him necessary facilities for research work. The author is grateful to Agra College authorities for sponsoring him for higher studies and the University Grants Commission for financial support under the Faculty Improvement Programme.

Though it is beyond the scope of his acknowledgment for what the author has received from his mother (who left for heavenly abode on August 19, 1979), his father and his elder brother Shri S.M. Shinghal by way of affection, inspiration and encouragement, yet he makes an effort to express his heartfelt and most affectionate gratitude to them.

(KRISHNA MANOHAR)
