

SUBLIMATION TRANSFER PRINTING OF COTTON AND POLYESTER/COTTON BLENDS WITH DISPERSE DYES

by
ANIL KUMAR JAIN

*A Thesis Submitted to the
Indian Institute of Technology, Delhi
for the award of the degree of
DOCTOR OF PHILOSOPHY*

**DEPARTMENT OF TEXTILE TECHNOLOGY
INDIAN INSTITUTE OF TECHNOLOGY, DELHI**

OCTOBER, 1989

CERTIFICATE

This is to certify that the thesis entitled "SUBLIMATION TRANSFER PRINTING OF COTTON AND POLYESTER/COTTON BLENDS WITH DISPERSE DYES" submitted by Mr. Anil Kumar Jain to the Indian Institute of Technology, Delhi, for the award of degree of Doctor of Philosophy is a record of the bonafide research work carried out by him. He has worked under my guidance for the submission of this thesis, which to my knowledge has reached the requisite standard.

This thesis or any part thereof, has not been submitted to any other University or Institution for the award of any degree or diploma.

(R.B. Chavan)
Professor
Thesis Supervisor
Department of Textile Technology
Indian Institute of Technology, Delhi
New Delhi-110016, India.

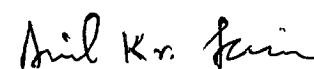

ACKNOWLEDGEMENTS

I feel great pleasure to express my deep sense of gratitude and highly sincere thanks to Dr. R.B. Chavan, Professor, Department of Textile Technology, Indian Institute of Technology, Delhi, for his guidance, encouragement, invaluable help and continued interest throughout the course of this work without which it would not have been possible to develop this work into its present form.

I would like to thank Dr. Bhaskar Dutta, Professor & Head of Department of Textile Technology, IIT, Delhi, Prof. M.L. Gulrajani, Prof. (Ms) P. Bajaj, Prof. V.B. Gupta and Dr. D.K. Jain for their kind help in every aspect, for providing all the facilities in the Department and for the valuable suggestions.

I am very much thankful to my all research colleagues specially Dr. Mohd. Hanif Langer, Dr. (Ms) Manjeet Bhatia, Mr. Sanjay Gupta and Mr. G. Nalankilli for their help and assistance. I also gratefully acknowledge the assistance rendered by the technical staff of Textile Technology Department. I am specially very much thankful to Mr. Rajesh K. Arora, for typing the thesis neatly and carefully with great patience and sincerity. I am also thankful to Mr. K.G. Padam, for tracing the figures.

Finally I appreciate the understanding and patience of my wife, Mrs. Raj Jain, and my daughter Ekta who contributed indirectly but nevertheless very significantly to the completion of this work.

(Anil Kumar Jain)

DEDICATED TO
SHRI SAI BABA (SHIRDI WALE)

SYNOPSIS

CHAPTER 1 GENERAL INTRODUCTION

1.1	HISTORICAL DEVELOPMENT	1
1.2	PROCESS DESCRIPTION	2
1.3	VARIABLES IN THE SUBLIMATION TRANSFER PRINTING PROCESS	2
1.3.1	Paper Selection	2
1.3.2	Dyestuff Selection	3
1.3.3	Printing Ink Composition	5
1.3.4	Fibre Suitability	6
1.4	PAPER PRINTING METHODS	7
1.4.1	Gravure Printing	7
1.4.2	Flexographic Printing	9
1.4.3	Lithographic/Offset Printing	9
1.4.4	Letter Press Printing	10
1.4.5	Rotary Screen Printing	10
1.4.6	Manual Screen Printing	12
1.4.7	Block Printing	14
1.4.8	Spray Printing	14
1.5	TRANSFER PRINTING MACHINERIES	15
1.5.1	Flat Bed Presses	15
1.5.2	Rotary Continuous Calenders	16
1.5.3	Vacuum Press	17
