

GRAFT COPOLYMERIZATION OF NATURAL AND MODIFIED
COTTON CELLULOSE USING SOME ACRYLATE MONOMERS

A thesis submitted to the
INDIAN INSTITUTE OF TECHNOLOGY, DELHI

for the degree of
DOCTOR OF PHILOSOPHY

VEENA NARASIMHAN

Department of Textile Technology

December, 1974

CERTIFICATE

This is to certify that the thesis entitled "Graft copolymerization of natural and modified cotton cellulose using some acrylate monomers", submitted by Mrs. Veena Narasimhan for Ph.D. degree of Indian Institute of Technology, Delhi, embodies the results of original work carried out by her under my supervision in the Department of Textile Technology, and has not been submitted for any other degree of any university to the best of my knowledge.

MY HUSBAND

ACKNOWLEDGEMENT

It is indeed a pleasure to record my appreciation and indebtedness to Prof. D.S. Varma for his unfailing help and guidance throughout these studies. He has been a source of inspiration and encouragement at all times.

My thanks are due to Prof. N.M. Swani, the Director of the Institute, for his keen interest in this work and for the provision of the Institute facilities.

I am indebted to Dr.(Mrs.) I.K. Varma of the Chemistry Department for many valuable discussions.

I am grateful to all my friends and colleagues in the Department for their help and cooperation.

Finally, I wish to thank Mr. M.P. Joseph for neat and accurate typing of the manuscript, and Mr. K.G. Padam for tracing the figures.

Veena Narasimhan

CONTENTS

	Page
CHAPTER 1. GENERAL INTRODUCTION	
1.1 Introduction	1
1.2 Structure of Cellulose	4
1.3 Modification of Cellulose	6
1.4 Systems of Grafting	13
1.5 Proof of Grafting and Characterization of Grafts	14
1.6 Properties and Applications of Graft Copolymers	17
CHAPTER 2. GRAFT COPOLYMERIZATION	
2.1 Introduction	21
2.2 Decomposition of Labile Chemical Derivatives	21
2.3 Chain Transfer Reactions	24
2.4 Grafting of Cellulose Derivatives	32
2.5 Experimental Methods	34
2.6 Results and Discussion	41
CHAPTER 3. X-RAY DIFFRACTION AND INFRARED STUDIES	
3.1 Introduction	62
3.2 Wide Angle X-ray Diffraction by Cellulose Fibers	65
3.3 Infrared Spectra of Cellulose and Modified Cellulose Fibers	67
3.4 Experimental	69
3.5 Results and Discussion	72

	Page
CHAPTER 4. PHYSICAL PROPERTIES OF GRAFT COPOLYMERS	
4.1 Introduction	84
4.2 Experimental	91
4.3 Results and Discussion	95
CHAPTER 5. THERMAL BEHAVIOUR OF GRAFT COPOLYMERS	
5.1 Introduction	117
5.2 Experimental	123
5.3 Results and Discussion	127
CHAPTER 6. GENERAL DISCUSSION AND SUMMARY	
6.1 Sources of Errors	148
6.2 Grafting of Natural and Modified Cotton Cellulose	149
6.3 Structure and Properties of Graft Copolymers	154
6.4 Suggestions for Future Work	158
