

**INVESTIGATIONS
IN THE FIELD OF SEPARATION OF CYCLOHEXANE
FROM ANKLESHWAR CRUDE**

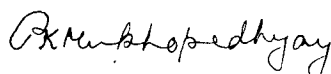

A thesis submitted to the
Indian Institute of Technology, New Delhi
for the degree of
DOCTOR OF PHILOSOPHY
In Chemical Engineering

SAWARAN JIT CHOPRA
Chemical Engineering Department
May 1970

CERTIFICATE

This is to certify that this thesis entitled "Investigations in the field of separation of Cyclohexane from Ankleshwar Crude," being submitted by Mr. S. J. Chopra to the Indian Institute of Technology, Delhi, for the award of the degree of Doctor of Philosophy in Chemical Engineering is a record of bona fide research work carried out by him under my supervision and guidance for the last 3 years and 9 months and to my knowledge it has reached the standard of fulfilling the requirements of the regulations relating to the degree.

The results contained in the thesis have not been submitted in part or in full, to any other University or Institute for the award of any degree or diploma.

(Dr. P. K. MUKHOPADHYAY)

ACKNOWLEDGEMENTS

I am extremely grateful to Dr. P. K. Mukhopadhyay for his valuable guidance and continued encouragement throughout this work.

My grateful thanks are due to Prof. B. Narayan Das and other staff members of the Chemical Engineering Department, Indian Institute of Technology, Delhi, for their constructive criticism during the course of this research project.

I am deeply grateful to Shri R. P. Singh, Computer Centre, Indian Institute of Technology, Delhi, for his very valuable assistance during computational work.

My thanks are due to the authorities of the Indian Institute of Technology, Delhi, for providing me with a scholarship and to the staff of Central Workshop and Computer Centre for their co-operation while working on this project.

I am also grateful to M/s. General Aniline and Film Corporation, U.S.A., for supplying free sample of N-Methyl Pyrrolidone for the work.

I will be failing in my duty if I do not thank Shri Nand Kishore and Shri G. D. Sastry for the help they rendered.

S. J. Chopra
(S. J. CHOPRA)

CONTENTS

	<u>Page</u>
LIST OF TABLES	
LIST OF FIGURES	
LIST OF APPENDICES	
CHAPTER 1 Introduction	
1.1 Importance of cyclohexane	1
1.2 Occurrence of cyclohexane	1
1.3 High purity cyclohexane	2
CHAPTER 2 Liquid-Liquid Equilibria for the System Naphthene-Paraffin-Solvent	
2.1 Choice of solvent	15
2.2 Ternary liquid-liquid equilibrium	17
2.3 Multicomponent liquid-liquid equilibria	28
Summary	41
CHAPTER 3 Multi-component Liquid-Liquid Extraction Calculations	
3.1 Analogy between distillation and extraction	77
3.2 Development of the method for multi- stage liquid extraction calculations	78
3.3 Evaluation of results from computer programme	91
3.4 High purity cyclohexane	96
Summary	96
CHAPTER 4 Mechanically agitated Liquid- Liquid Extractor	
4.1 Selection of an extraction column	106

4.2 Development of a new extractor	109
4.3 Description of the extractor	111
4.4 Working of the extraction column	112
4.5 Column drive	113
4.6 Extractor layout	114
4.7 Operation of the column	114
4.8 Experimental results and their evaluation	117
4.9 Comparison with other columns	119
Summary	121
CHAPTER 5 Processing Scheme for High-Purity Cyclohexane	
5.1 Process scheme	143
5.2 Suggestions for further research work	145
CHAPTER 6 Summary	150
BIBLIOGRAPHY	153
