in fulfilment of the requirements of the degree of
DOCTOR OF PHILOSOPHY

to the

Indian Institute of Technology, Delhi

October, 1976

ACKNOWLEDGEMENTS

I wish to express my deep sense of gratitude to Dr. I.C. Goyal and Prof. A.K.Ghatak for their valuable guidance, encouragement and inspiration which made this work a stimulating experience indeed. I am greatly indebted to Prof. N.S.Sodha for his constant encouragement and keen interest shown in the progress of this work.

My thanks are also due to Dr. D.P.S.Malik, Dr. Arun Kumar, Dr. K.Thyagarajan and many other colleagues and friends for their kind help.

It is really a pleasure for me to extend warm thanks to everyone at home for their tremendous help at all stages of the work.

I gratefully acknowledge the financial support of the National Council of Educational Research and Training, New Delhi and the Indian Institute of Technology, Delhi.

I also thank Mr. T.N.Gupta for an efficient typing of the thesis and Mr. N.S.Gupta for drawing the figures so well.

CONTENTS

| CHAPTER | | Page |
|---------|--|------|
| I | INTRODUCTION | 1 |
| II | PROPAGATION OF AN ELECTROMAGNETIC WAVE THROUGH A CIRCULARLY CURVED SELFOC FIBER | 14 |
| | SECTION A: | |
| | 1. Modal Analysis | 16 |
| | 2. Propagation of a Gaussian Beam | 22 |
| | 3. Numerical Results and Discussion | 24 |
| | SECTION B: | |
| | 1. The Kernel | 30 |
| | 2. Propagation of a Gaussian Beam | 33 |
| III | HAMILTONIAN THEORY OF FIFTH-ORDER ABERRATION OF GRADED-INDEX MEDIA | 65 |
| | 1. Theory | 68 |
| | 2. Numerical Results and Discussion | 97 |
| | REFERENCES | 105 |
