

FILAMENTATION OF VERY INTENSE LASER BEAMS IN NON-LINEAR MEDIA

Nitin C. Kothari

**Thesis submitted to Indian Institute of Technology, Delhi
in Partial fulfilment for the degree of
DOCTOR OF PHILOSOPHY**

1980

ACKNOWLEDGEMENTS

It is my privilege to record my deep sense of gratitude and reverence to my research supervisor, Dr. S.C. Abbi, Assistant Professor of Physics, I.I.T., Delhi, for his painstaking guidance and constant encouragement throughout the course of my research.

It has been of immense benefit to me to have had the close cooperation of all my colleagues in the Quantum Electronics Laboratory who generously lent their time and labour.

I thank the Director, Indian Institute of Technology, Delhi, for providing the financial assistance.

Finally I thank Mr. D.R. Joshi who took great pains for the exhaustive typing of the manuscript.

N. Kothari
